

Tara Geraghty- Moats Gives Back

American Nordic Combined athlete Tara Geraghty-Moats has risen to the top in Women's Nordic Combined. During her journey she has dealt with financial, training and other challenges. Now in partnership with 4591 Sports Development and other donors she is giving back to the Next Generation of Nordic Combined athletes. This winter season three Junior NoCo athletes have been selected to receive up to \$500 each to help in covering their travel expenses to their upcoming Continental Cup Events (COC) or Junior World Championships

We asked Tara her reasoning for this

Tara- "Growing up I relied on scholarships and grants to get to junior nationals, as well as my first international races. I believe in returning the favor to the community. I have watched many careers stop before they could even start because of financial concerns, this is my small way of trying to help with that."
